# Introduction

These are the Speedrun Notes for Fire Emblem: Awakening Any% Normal/Classic.

A few things to keep in mind:

- There is a heavy amount of RNG in this run. Don't get discouraged from it.
- You need a **Second Seal** to spawn in an **Anna** shop before Chapter 7.
- You can mash Start to skip through cutscenes, dialogue, turn announcements, etc. Basically, keep on mashing Start
- Hold down **Down+A** during **Level Ups!** in order to clear the boxes faster.
- Hold down **A** while the map is loading, and then either hold down **A** or **Y** during movement on the map to go faster.
- You are allowed to use a save file to start your run, with a pre-setup Avatar. Timing begins on Save File Selection.
- Remeber to have fun!!
